

Above and Beyond

DECEMBER: Music

There are two choices for your Above and Beyond project for this month:

1. Take a familiar Christmas song and rewrite the words of the song to tell a Christmas memory or story. This Christmas memory or story should be able to be sung to the tune of the song you choose.
2. Create a musical instrument. Any object can create sounds. Use your imagination to put household objects together to create an instrument that you may demonstrate for the class.
**Please be creative! Your instrument should be more than just a single drum!*
